1 of 1 review helpful Tice's Return to Paterson By KR503 I was excited to get this book of photographs by George Tice, a master large format black and white photographer and original urban romantic. From him I learned how to make fine art prints and more importantly learned that the urban landscape can be at least as beautiful and fascinating as the natural landscape. He has been a big influence on my artistic life in c. A 10th generation native of New Jersey, renowned photographer George Tice began his thirty year documentation of the vernacular architecture of his home state with Paterson in 1972, which formed part of his acclaimed one man show at the Metropolitan Museum of Art. His most iconic images from this exploration are White Castle Route 1 Rahway N.J. and Petit's Mobil Station Cherry Hill N.J. In Paterson II, Tice revisits his source of inspiration adding scores of new images. From Booklist: Besides his brilliant book on the Amish of Lancaster County, Pennsylvania, Fields of Peace (1970), photographer Tice's best known project is his black and white documentation of Paterson, New Jersey.
